

CLIVIA WORKSHOP
at Babylonstoren

Presented by

Clivia specialist Heinie Heydenrych and the garden team

Date

9 September 2015

Time:

10h00 – 16h00

Meet us at the Farm Shop at 10h00 for a walk through the beautiful clivias in our garden. We have over 9000 clivias growing in the shade of the wild olives trees, as well as the very special Mick Dower collection displayed in the Puff Adder. Heinie, an experienced clivia grower and active member of the *Clivia Club*, will share his wealth of knowledge on the subject of growing and maintaining clivias - discussing the right potting mixes and fertilisers for clivias, as well as how to treat common clivia diseases.

After lunch we head to the *House of Shadows* - the beautiful wooden structure where we store our clivia collection. Here we will look at the most well-known clivia hybrids, and Heinie will demonstrate the art of cross-pollination. Then it's your turn to get your hands in the soil, and plant your very own clivia, a living souvenir to take with you when you leave.

Lunch will be enjoyed in the Greenhouse restaurant.

Cost R 450 per person

Reserve your spot with via email at enquiries@babylonstoren.com, or phone 084 2751243

For our hotel guests, the events for the day are included in your stay - book with Cindy on reservations@babylonstoren.com
